THE SECRET TREATY.

The mails brought yesterday by
"Aracama" confirm what we stated
some months ago, that a secret treaty
has been concluded between Lord Salis-
bury and the Italian Government. Mr.
Lalouchere publishes a conversation
that is said to have taken place between
the French and Italian Ministers, in which
the French Deputy, to the effect that the
King of Italy (Jerome's heir-in-law)
assured him that in the event of a Euro-
pean war the British Government had
agreed to compromise itself, in a written
compact, to send a fleet to the Mediter-
ranean to protect the Italian ports
against the French or any other enemy.

A treaty of this kind is a matter of
great importance, and it is not to be
kept secret. If the people of the United
Kingdom wish to join the Triple Alliance,
the better to secure the peace of
Europe, they must remember the fact that
France and Russia, it should be done
openly. But, there is a large section of
the British nation who believe that it
is wiser and safer for Great Britain
to keep out of European entangling
alliances, and to refrain from meddling in
any way with Continental questions.

If there was ever a time in which
Great Britain should have thrown her
weight in with France, it was when she
prevented France being reduced to a
second-class Power. The neutrality of
England on that occasion has alienated
from us the good wishes of the French,
and it is an extraordinary circumstance
that England finds it expedient to keep
out of European politics. It may be
questionable whether Great Britain can
prudently adopt the Gladstone policy
of non-interference in Continental mat-
ters. But, no good can result from an
ambiguous mode of action, such as
concluding a secret treaty with Italy.
John Bull has a right to know what his
alliances are, and he is not the man to
shirk them.

**AMATEUR DRAMATIC PER-
FORMANCE.**

The performance which takes place
to-night at the Oniralia Theatre in aid
of the Benevolent Society and the new
Bey's Orphanage promises to be in every
way a great success. The rehearsal of
Wednesday was admirable, and the pieces
to be produced will afford a pleasant
evening. One of our
best amateur performers, Mr. Goye Day
vision, will make his final appearance, in
My Lord in Livres, as we regret to say
he is about to leave shore for England,
as well as Mr. Alexander, who also
will make his last appearance at the
theatre. The weather promises favorable
for the occasion, and the sale of tickets
at Mr. Mackers's
place and among the British public looks
forward confidently to a delightful en-
tertainment. There are still some boxes
on the third tier undisposed of, and the
proprietors of several private boxes
have generously ceded them for the
night. We are, therefore, requested to
announce that at the last moment some
of the private boxes may be obtained at
the Boletoia. If there be any foreign
visitors, and we believe there will be,
the U. S. corvette Talpaosa is one, we
venture to ask the commanding officers
to give the blue-jackets leave for the
evening; the tickets for the gallery (en-
tirely unoccupied) are fixed at about
charge of 50 cents or about sixpence
English.

As we have already announced, there
will be tram-cars and special trains
from the station to the theatre, and the
theatre is at the corner of
Calle Victoria and San José, and has
been kindly given gratis by the prop-
rietors.

THE CHILIAN REVOLUTION.

According to the latest intelligence
from the sea, the Chilean revolution
has been actively re-commenced hostil-
ties. The torpedo-catchers on Mon-
day morning Pangua. The Imperial
joined the torpedo-catchers shortly after
and began firing on the town. The
army of the revolutionists ashore
answered in an equally warm manner,
the practical results being: hurried de-
parture of the torpedo-catchers and
Imperial, two houses killed, and no
losses on the part of the Government.
This kind of bombardment
will certainly not injure the revolution-
ists. The torpedo-catchers sailed towards
the north.

The Stephens Division, which under-
went a very terrible bombardment, was
crossing the Cordillera, is now in the
town of Andes, and will no doubt soon
be sent northward to oppose the revolu-
tionary forces.

Amongst other telegrams received
yesterday there is one which states that
the revolutionists have agreed to hand-
over to the province of Antofagasta
and to pay a certain amount of the
debt of the province. This news, how-
ever, is certainly not to be taken as a
confirmation. In the meantime it is
certain that Bolivia has recognized the
revolutionists as a belligerent power, in
consequence of which the Chilean Min-
ister in Bolivia has asked for his pas-
ports, and it is at present on his way to
Lima.

LATEST FROM EUROPE.

The papers received yesterday from
Europe by the Spanish steamer Antonio
Lopez, bring the following news:—
London, June 25.—The Sir Gordon
Comming affair was again before the
courts today. Sir Charles Russell spoke
on behalf of the plaintiffs and formulated

marca. The authorities are to be re-
instated. The following is the latest and
most reliable of the most authentic version
of the revolution:—

Catamarca,
June 24, 11 p.m.

"A revolution has broken out here,
and its aim is to place in the hands of the
leaders of the Union, the party were
under arrest at the time. It is sup-
posed that the guards of the prison
were in connivance with the prisoners,
who got out immediately on the first
alarm being fired. There were, how-
ever, several guards who endea-
voured to resist, and these were killed
or disabled."

It is alleged, in justification of the re-
volution, that Mr. Ferrer's tenure of
office was illegal, as he had resided the
greater part of his lifetime in Entre-Rios
and had not the necessary qualification
for the Governorship—five years' resi-
dence in Catamarca.

The revolutionists are supposed to be
about one hundred strong.

THE CHILIAN REVOLUTION.

According to the latest intelligence
from the sea, the Chilean revolution
has been actively re-commenced hostil-
ties. The torpedo-catchers on Mon-
day morning Pangua. The Imperial
joined the torpedo-catchers shortly after
and began firing on the town. The
army of the revolutionists ashore
answered in an equally warm manner,
the practical results being: hurried de-
parture of the torpedo-catchers and
Imperial, two houses killed, and no
losses on the part of the Government.
This kind of bombardment
will certainly not injure the revolution-
ists. The torpedo-catchers sailed towards
the north.

The Stephens Division, which under-
went a very terrible bombardment, was
crossing the Cordillera, is now in the
town of Andes, and will no doubt soon
be sent northward to oppose the revolu-
tionary forces.

Amongst other telegrams received
yesterday there is one which states that
the revolutionists have agreed to hand-
over to the province of Antofagasta
and to pay a certain amount of the
debt of the province. This news, how-
ever, is certainly not to be taken as a
confirmation. In the meantime it is
certain that Bolivia has recognized the
revolutionists as a belligerent power, in
consequence of which the Chilean Min-
ister in Bolivia has asked for his pas-
ports, and it is at present on his way to
Lima.

LATEST FROM EUROPE.

The papers received yesterday from
Europe by the Spanish steamer Antonio
Lopez, bring the following news:—
London, June 25.—The Sir Gordon
Comming affair was again before the
courts today. Sir Charles Russell spoke
on behalf of the plaintiffs and formulated

himself of his position, he had, in com-
bination with other employees, stolen
some of the notes, which he afterwards
proceeded to introduce into circulation.
These notes are for 1000 and 5000, and
in its issue of the 19th the *Journal de*
Commercio stated that the number
passed was estimated at 3,000; but the
following day the same paper pub-
lished a communication stating that it
was probable that few notes had been
stolen. The persons implicated in the
crime have been arrested.

RACING AT BELGRANO.

Upsets were the order of the day on
Sunday, the talent getting some heavy
knocks on what they imagined were
very large, starting fair, and the time
was out of it before the thousand
metre post was reached. Lagrima,
though favourite, surprised the ring, and
won her race in the quickest time on
record. She will, without a doubt, be
the best of the race. The other horses
were for many another race before the
year is finished. Phoenix and Puri
won their respective races from start
to finish, and Onyx, on whom odds were
on, won easily. The attendance was
very large, starting fair, and the time
